

## PRESERVATION KITS

*Each kit comes with:*

- ♦ Preservation Kit Instructions
- ♦ Preservation Tips
- ♦ 12 Time Capsule Project Tips
- ♦ “How to Preserve Newspapers” Booklet
- ♦ “100 Time Capsule Ideas” Booklet
- ♦ Sample MVP, Sealing & Instructions  
(because all kits contain the MVP bags)

As many of you already know, our main business is time capsules and the preservation of contents inside of them. We’ve offered these kits for a long time, but many of you have requested to know what’s inside as well as the price. So, here are our “Time Capsule Preservation Kits” with contents listings. All items are Acid-Free & Lignin-Free, and some have additional pH buffering protection. Please note that we may change some of the contents slightly but we promise you’ll always get at least 20% savings (that’s our goal). The amount of absorbent chemicals is figured on a time capsule container that is at least 3/4 full. For very empty time capsule containers, you may need more than we give you in the kit.

- *Extra Small Time Capsule Kit, for protection of up to about 1,000 cubic inches in a rigid airtight container, No. 11000*
- *Small Time Capsule Kit, for protection of up to 1728 in<sup>3</sup> in a rigid airtight container, No. 11001*
- *Medium TC Preservation Kit, for protection in a rigid airtight container of up to 12x12x16” size or 2,304 in<sup>3</sup>, No. 11002*
- *Large TC Preservation Kit, for protection in a rigid airtight of up to 12x12x20” or 2880 in<sup>3</sup> in a container, No. 11003*
- *Extra Large Capsule Preservation Kit, for protection in a rigid airtight container up to 14x14x30” or 5,880 in<sup>3</sup>, No. 11005*

Add additional conditioners as needed for container size.
