& PRESERVATION

The Signature Scrolls

The Signature Scroll is used to commemorate a special event such as an anniversary, a time capsule dedication, a memorial event, a wedding, a reception, a retirement, a merger, a fund-raiser, a reunion, a political petition, or just any special sign-in!

Preserve Your Greeting!

Imagine an irreplaceable greeting card for the future citizens from your present-day group. Then, imagine a surface upon which you could fit hundreds of signatures with messages. Now think of this card as lasting hundreds of years, without the paper getting yellow with age and without the ink fading. This is our Signature Scroll!

Gets Folks Involved

Want your group to be more involved in your project? Use the Signature Scroll to help involve them in a common act that allows for individuality. It can be simply entitled, "Our Message to the Future," centered underneath your company name and a date. If you are placing a Time Capsule, for example, you can place one or more Signature Scrolls inside. Or you can simply store them in a safe place and bring them out again at a later time. Consider the Signature Scroll for use at family reunions, weddings, bat mitzvahs, and any special family graduation or birthday ceremonies. And they are just as popular for large organization who have a large member base for signing.

Ideas for Use

☛ Hundreds of organizations, from churches to companies to schools to whole communities, have used the Signature Scroll to fill public needs on special occasions. It's especially useful at ground breaking ceremonies and grand openings, because it gets all the attendees involved—not just a select few.

☛ At such special times as a wedding or religious celebration, the celebrants want the memories to last a lifetime or more. The usual guest register often has acidic paper and is bound with harmful glues. For these reason, folks use our long-lasting, AcidFree Signature Scrolls.

☛ Want more than a greeting card? Think of using our Scrolls as a very elegant greeting for an important person, or for an entire company. For time capsules, it's usually the future folks who'll be opening up your "messages to the future."

☛ Some folks use our Signature Scrolls for fund-raising. For a pre-set fee or suggested donation, patrons are urged to sign the scroll. One successful way to control scroll space is to use a template or two made from a sheet of heavy AcidFree mat board. The opening of 3x5" or 4x6" is plenty of room for just a signature or a little message and date as well.

☛ It's important to get someone to start the signing off with the style you'd like to see emulated throughout. Folks tend to follow the leader. If you want lots of words, have someone do that first. If someone starts off just signing his name and nothing else, you may be disappointed (depending on your needs).

Calligraphy

Although we can no longer customize your Scroll with hand-crafted calligraphy, we can recommend one or two who practice this art in your local area. We do not recommend computer-generated calligraphy.

Ideas for Wording

As mentioned previously, one of the most popular headings for the Signature Scroll is "Our Message to the Future." This type of wording encourages signers to say something besides just signing their names. We keep some of these in stock. Another popular phrase for a Signature Scroll calligraphy heading is "We honor the past, celebrate the present, and embrace the future." We've seen groups vary the three words to fit their theme. The organization's name and the date of signing is often requested to personalize our Scroll. You can then attach to this a phrase especially meaningful to your event, such as "From the Employees of 2001 to the Employees of 2099."

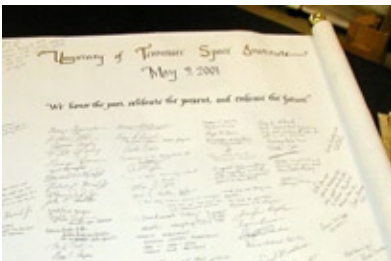

About How Many Signatures Will Fit?

It's estimated that a Blank Scroll in the 14" x 6 ft size can fit from 168-185 signatures, depending on styles used in signing. We estimate a bit more than twice that, or 336 to 400, for a 14" x 12 footer. For the 20" scrolls, we estimate from 240 to 260 for the 6 foot, and from 475 to 810 for the 12 foot length.

Your Scroll's Quality

We use a special paper for the Signature Scroll. Rated for 300 years, this Permalife paper is AcidFree, LigninFree, and Buffered. It is a seamless 20# warm white bond paper. One side is sized for signatures. The ends on the Deluxe Scroll are chrome-plated brass (silver in color). The wooden end pieces are specially sealed to provide an acid-free, lignin-free surface that does not out-gas over time. The glue used is a neutral pH adhesive. Each Scroll is made by hand. After assembly,

deluxe scroll ends are fastened with colored bands. Then the scroll is wrapped carefully with archival tissue and tied with a ribbon. Your scroll comes with at least one pen whose ink is archival black, with long lasting pigmented ink. You can also order additional pens. The ink used for the pens is guaranteed to be fade-proof and water-proof. We recommend that you save and reuse the large sheet of special AcidFree, LigninFree Tissue included with the purchase of your Scroll. This helps protect it from harmful environmental elements.

Simple or Deluxe?

The Deluxe Scroll is our original scroll and is hand made of specially sealed wood with brass ends. A pH neutral adhesive is used to attach the paper. Two fade proof black pens are included. The Simple Scroll is made from the same AcidFree & LigninFree paper, but has no ends. Scrolls are wrapped in AcidFree tissue and tied with a ribbon. As an option you can add a nice complement to either Signature Scroll by ordering a soft velvet enclosure. This pouch helps protect the scroll from dirt, scratches and rips, especially as it's handed around frequently for signatures.

	"DELUXE SCROLL"		"SIMPLE SCROLL"		CAPACITY*
SHORT - 3 FT (36")					
	2-ENDS	PRICE	0-ENDS	PRICE	
x 14"	19234	\$105.95	19134	\$26.95	84
x 20"	19230	159.95	19130	\$34.95	120
MEDIUM - 6 FT (72")					
x 14"	19264	\$135.95	19164	\$40.95	168
x 20"	19260	\$189.95	19160	\$52.95	240
LONG - 12 FT (144")					
x 14"	19224	\$204.95	19124	\$61.95	236
x 20"	19220	\$284.95	19120	\$79.95	472

* Signature capacity of scrolls is based on a signature of approximately 2" x 3" in size, and applies to both simple & deluxe style scrolls. Results will vary.
